

# Equitop Myoplast

EQUITOP MYOPLAST® is a high quality feed supplement designed to support the muscle structure of your horse. The mixture contains algae powder and provides the muscles of your horse with 18 amino acids in a unique composition. Thus, EQUITOP MYOPLAST® supports the physiological formation and functioning of the muscles during intensive training periods.

EQUITOP MYOPLAST® is available as tasty pearl granules to ensure that your horse willingly eats the product and thereby gets the maximum benefit from its components. The specified processing of the granules ensures a consistent quality of the delicate ingredients.

**Guaranteed analysis in:**

Crude protein (min)	261 g/kg
